Mr. H. E. Bailey Was Last Night
Elected to Position of Sec-
ond Lieutenant.

Mr. H. E. Bailey was last night elected to the position of Second Lieutenant, Company B, First Regiment South Carolina at the meeting held in the armory on North Main street. Mr. Bailey was elected to fill a position made vacant by the resignation of Mr. J. J. Trowbridge.

Capt. Ligon stated last night after the meeting that a suitable site for a rifle range had been found, and that in all possibility the local militia would have one within the next few weeks. The location will be about five miles east of the city on Mr. Pat Major's place and will be a good one. The United States government gives between \$600 and \$800 for the establishment of the range the first year, if so much be necessary and contributes for its up-keep in the years following.

Spring.
Spring is looked upon by many as the most delightful season of the year, but this cannot be said of the rheumatic. The cold and damp weather brings on rheumatic pains which are anything but pleasant. They can be relieved, however, by applying Chamberlain's Liniment. Obtainable everywhere.

Insomnia.
Indigestion nearly always disturbs the sleep more or less, and is often the cause of insomnia. Eat a light supper with little if any meat, and no milk; also use one of Chamberlain's Tablets immediately after supper and see if you do not rest much better. Obtainable everywhere.

Conforming to recent court ruling, the West Virginia railways have barred liquor from the baggage cars of their passenger trains.

TAX FOR SUPPORT HEALTH OFFICES

Georgia Legislature Will Be Asked to Create Fund for This Purpose.

Atlanta, April 13.—The legislature of Georgia and other law making bodies of the southern states will be asked to levy a tax for the support of the state health departments that is equal in amount to the taxes collected by the states from life insurance companies.

The Southern States Life Insurance company, through its publication, "The Keystone," has inaugurated a movement for better health conditions in the south, and in this connection has suggested a plan that has been widely endorsed.

"As the taxes from life companies are only a small part of the receipts from insurance as a whole, each state could easily afford to divert these funds to the work of health authorities," declares "The Keystone." "Especially is this so when it is considered now largely this course would tend to increase the production of the people and eventually to create more wealth upon which to receive more taxes through the ordinary channels.

Statistics, prepared by the Southern State Life, show that for the year ending December 31, 1914, life insurance companies paid to the states in taxes the sum of \$10,550,837, an average of \$216.623 per state.

In the same time the states appropriated to the support of their health departments \$3,326,020, or an average of \$70,766 per state. It is pointed out that if all this life tax fund could be put out for health advancement, it would give a fund in most ways equated to the service.

Dr. H. F. Harris, state health officer of Georgia, says that if the state would provide a fund of \$25,000 a year for typhoid serum this malady would be eliminated from Georgia in three years.

Governor Nat E. Harris has commended the movement of the Southern States Life for better health conditions. He says that while Georgia has done very well indeed in this line, there is a vast opportunity for scientific extension in the matter of health and sanitation.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots—How to Remove Them.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

PREVENTION

An ounce of prevention is worth a pound of cure. This is the day of PREVENTIVE MEDICINE. Nowhere is this so necessary as in regard to the care of the TEETH. Visit the dentist AT LEAST twice a year, whether you think you need it or not. Let him give your teeth a thorough cleaning, search out the beginnings of decay, clean off the tartar, and in general PREVENT those dental evils that are likely to grow on you unawares.
